Allowable Subject Matter

Claims 1-19 are allowable.

The following is an examiner's statement of reasons for allowance: In addition to the remarks set forth by applicant in regarding how the claims define over the Kempshall since Kempshall does not disclose the outer (claimed "second") shaft adapted to conform to the surface of the workpiece the newly found reference to Pierce (US 2,292,239) is of particular interest since it shown this feature in the embodiment of Figs. 7, 8 and 10. However, Pierce lacks the slots in the outer (claimed "second") shaft and also provides no motivation for the inclusion of such slots. Conversely, there would be no motivation to modify Kempshall to enable its outer (claimed "second") shaft to engage the surface of the workpiece beyond the periphery of the hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
